

Payload-Linker

Asymchem provides comprehensive payload-linker CDMO solutions to accelerate your journey to commercialization. With a combination of technology, infrastructure, and expertise, we provide customized services to worldwide clients with reduced time-lines and minimized risk.

Why Partner with Asymchem?

OEB 5

Dedicated Facilities for
Handling Potent and
Cytotoxic Materials

8,800 m²

High-potency
Manufacturing Space

70+

Cumulative Experience
for IND Projects

15+

Cumulative Experience
for NDA Projects

4~6 Months Lead Time for
IND Filing Package

12~18 Months Lead Time for
NDA Filing Package

Attachment

- DBCO-Amine / COOH / PEG
- BCN-OSu
- MC, Mal-PEG, etc.

Linker

- VC-PAB / VA-PAB etc.
- VC-PAB-PNP / VA-PAB-PNP etc.
- GGFG-Glycolic acid etc.
- PEG2-PEG40K
- PEG-Peptide
- Mono- / Poly-saccharides-Peptide
- Multivalent / Dendrimer / Polymer

Payload

Auristatin

30+ IND & 7 NDA projects

Camptothecin

20+ IND & 6 NDA projects

Maytansine

2 IND

Eribulin

2 IND

Dual Payload

5+ IND & 2 NDA projects

Payload1 vs Payload 2: equality or difference

Others

10+ IND

Inhibitors:
Pan-RAS, KRAS, PARP etc.

E3 ligands: VHL, CRBN

Immune modulator:
STING agonist HDAC inhibitors etc.

Dedicated Facilities

- **20 Dedicated cGMP High-potency Manufacturing Lines**

11 Isolators for 100 g~ kg Scale

9 Plants for >kg Scale

- **US FDA Audited in 2014 & 2019 & 2025**

DEDICATED FACILITIES

CHINA

Asymchem Laboratories (Tianjin) Co., Ltd [Headquarters](#)

USA

ASYM CHEM INC.

UK

ASYM CHEM LIMITED

JAPAN

Asymchem Japan K.K.
